

# Brown Tom

## Full stack developer

### SUMMARY

*I'm a senior web developer with a passion for building clean, user-friendly websites and web apps.*

*I have hands-on experience with HTML, CSS, JavaScript, React, Node and MongoDB and I enjoy turning design ideas into responsive, functional code.*

*I'm always learning and improving — currently diving deeper into backend development with Node.js and Express.*

*I love working on collaborative teams and solving real-world problems through code*

### EXPERIENCES

#### **-High School -PCM**

*Mayple Valley High School, US (2016)*

*Built an early interest in coding, building basic games and websites in school projects.*

#### **-B.Tech-Computer Science (CSBS)**

*Greenwood State University, US (2020 - 2023)*

*Focused on full stack development, AI projects, and cloud computing technologies*

#### **-Internship at @ProdigyInfoTech**

*Apr 2023 - Oct 2023*

*Worked on UI/UX design, responsive components, and integrated APIs using React and Tailwind CSS*

## **-Senior Developer(Freelancer, Upwork)**

Nov 2023 - present

Worked on AWS services ,cloud deployment, and automation.

Gained hands-on experience with cloud infrastructure and DevOps practices

## **SKILLS**

React, Node, Vue, MongoDB, PHP, CI, Laravel, MySQL,

## **ACCOMPLISHMENTS**

Developed a React component library that improved development efficiency by 30%.

Optimized website performance resulting in a 40% decrease in page load times.

Led the implementation of a scalable API architecture, reducing response times by 50%.

Contributed to the successful launch of a WordPress-based e-commerce platform, increasing sales by 20%.

## **INTERESTS**

Exploring new JavaScript frameworks and libraries

Participating in hackathons to push technical boundaries

Staying updated on industry trends through blogs and online courses

Contributing to open-source projects to enhance coding skills
